

Dear Prospective 10th Grade Da Vinci Parents and Students,

In order for students to have a better idea about what Da Vinci High School is like on a daily basis we have arranged two Student Preview Days, for prospective 10th graders, on our campus where students can come to our campus and visit for an hour and a half to catch a glimpse of the Da Vinci High School experience. Students will participate in the collaborative process, visit classes and get to know other prospective and current students.

Holmes students should make every attempt to attend the March 25th preview day in order to reduce the impact on Holmes classes.

Harper students should make every attempt to attend the March 24th preview day in order to reduce the impact on Harper classes and to ensure they do not miss the Davis Senior High School presentations on March 25.
